FRIED ONION

Dehydrated fried onion is a convenient and versatile ingredient used in various cuisines. It is made by frying fresh onions until they turn golden brown and then dehydrating them to remove moisture.

This process not only extends the shelf life of the onions but also concentrates their flavor, giving them a rich, savory taste with a hint of sweetness and a satisfying crunch.

Fresh Fried Onion

Color: Golden to dark color

SPRAY DRIED POWDER

Spray-dried powder is a type of dried product created through the spray drying process, which involves converting a liquid into a fine powder. In this process, the liquid is atomized into a hot drying medium, typically air, which rapidly evaporates the moisture, leaving behind dry particles.
